

Time

Learning Objective:

To recognise and compare measures of time.

How many
measures of
time can you
remember?

Think, pair, share your ideas.

second

day

month

year

minute

hour

week

How many of these
did you remember?

Can you say the days of the week in order?

Can you say the months of the year in order? Use the mnemonic below to help you!

Jazzy **F**isherman **M**ight
Accidentally **M**adden **J**umping
Jellyfish **A**nd **S**ing **O**n **N**oisy
Dolphins!

minute

day

year

hour

month

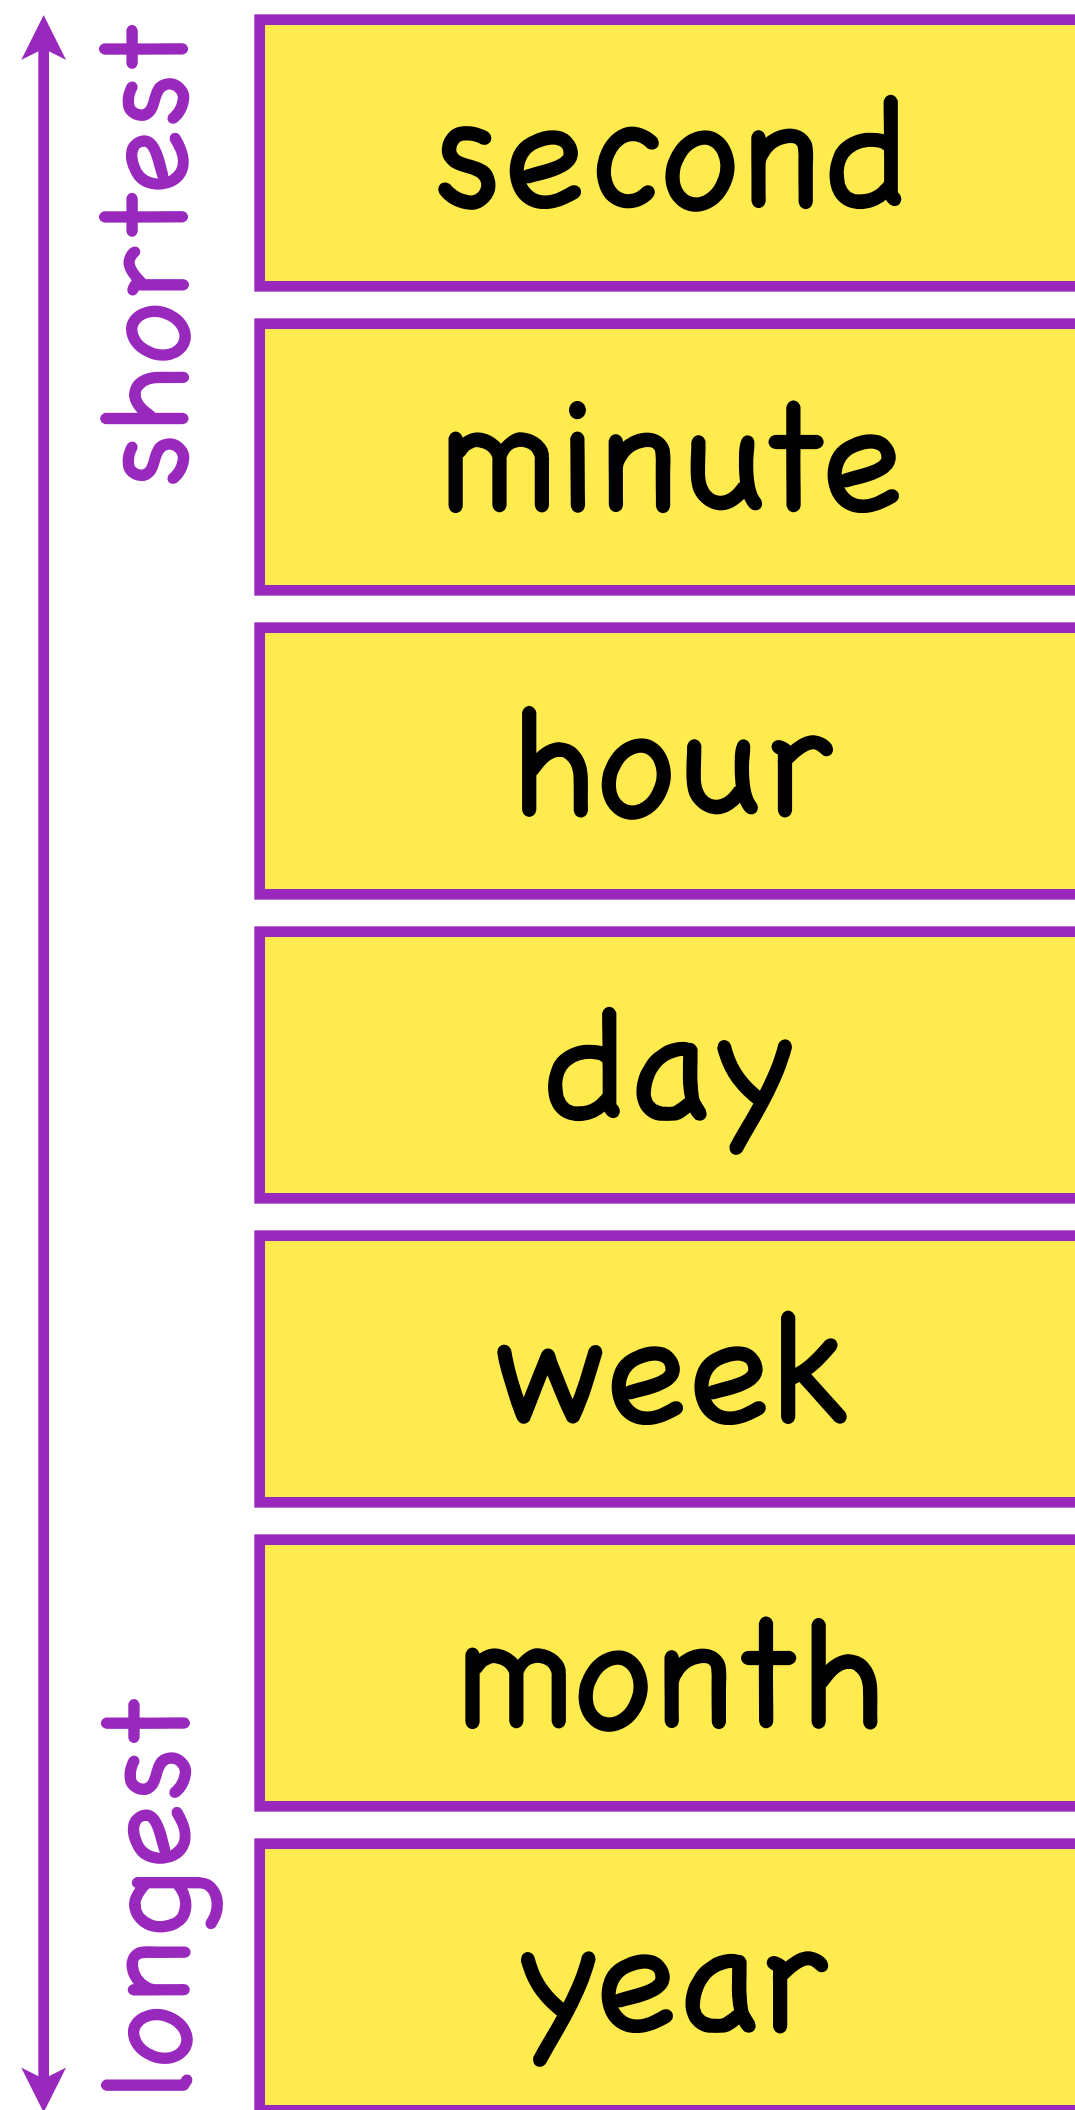

week

second

**Can you order
these measures of time
from the shortest to the
longest?**

A second is the shortest of these time measures.

Can you think of any activities that would only take a few seconds to do?

What ideas did you come up with? Did you think of any of these examples?

Blinking

Turning a page in
a book

Picking up a
pencil

Dropping a pin to
the floor

Throwing a ball to
a friend

Turning on a tap

Can you think of any activities that would take a few **minutes** to do?

What ideas did you come up with? Did you think of any of these examples?

Writing a page of a story

Playing a round of snap

Eating a sandwich

Singing a song

Reading a chapter of a book

Having a shower

Can you think of any activities that would take a few hours to do?

What ideas did you come up with? Did you think of any of these examples?

Flying to another country

Watching a film at the cinema

Playing a game of football

Reading a whole book

Visiting a museum

Having a birthday party

I bet you thought of lots more activities too!

How long do you estimate it would take to walk from one end of our classroom to the other?

How could you check this? Let's try it out!

How long do you estimate it would take to read a page from a book?

How could you check this? Let's try it out!

How long do you estimate it would take to say the ten times table?

How could you check this? Let's try it out!
